

Bonjour,

Please find attached a list of weekly activities to support your child's learning at home. Please don't hesitate to send me an e-mail if you have any questions or if you would like me to call.

Mme Lockerbie 😊

Math	
Online resource	Zorbits Math <a href="https://play.zorbitsmath.com">https://play.zorbitsmath.com</a>
Counting	Count by 10's to 100. Start at different numbers (ex: 4,14,24,34,44,54,6,74,84,94). Write them down on paper.
Dice Game	<b>Greater/Less Than:</b> Roll 2 dice and create the biggest number and smallest number with what was rolled. Say the numbers in French. <b>If you roll a 2 and a 4 you would say: 42 quarante-deux, 24 vingt-quatre.</b>
Card Game with a deck of cards (Remove the 10's and face cards)	<b>Play Addition Battle :</b> Each player turns two cards over at the same time and adds them up. The player with the greater sum (highest answer), wins the hand and keeps the cards. Play until all the cards have been used. The player with the most cards wins.
Measurement	Use objects such as paperclips, pencils, straws, shoes, spoons etc. to measure items around the house. Ex: How many shoes long is the sofa? How many spoons high is the kitchen table? How many paperclips long is the book? Ask questions: If you measure with an adult's shoe, will the sofa be more or less shoes? Make sure not to leave spaces between shoes, paperclips, spoons etc. when measuring! Be creative and have fun!

<b>Literacy</b>	
<b>Reading</b>	<p>1. Reading website : <a href="https://jelis.rkpublishing.com/student">https://jelis.rkpublishing.com/student</a> Listen to a book then read the book twice. Read at least one book each day. (There is an option to record yourself reading. We will not be using this feature at this time).</p> <p>2. Sound of the week : "è." Watch the <b>Ève escargot</b> video. Sing along! 😊 After, listen to the audio file on my teacher page and read the 5 sentences with me. Finally, you can read the sentences on your own.</p>
<b>Sight Word Practice and Word Work</b>	Listen to the audio file : " <b>Les mots fréquents 15</b> " on my teacher page. Practice reading the 6 words, then write the 6 words. See my " <b>Word Work Choice Board</b> " for different ways you can write the words. (One choice per day).
<b>Speaking / Listening</b> *You can talk to a classmate or family member on the phone or someone at home in French.	<p>1. Listen to my audio file : <b>Qu'est-ce que tu fais pour rester en bonne santé ? Pour rester en bonne santé, je....</b></p> <p>2. Watch my video on my teacher page: Le jour du Souvenir</p>
<b>Writing</b>	<p>Write about what you do to stay healthy. Start your sentence like this: <b>Pour rester en bonne santé, je ...</b></p> <p>You can write one sentence each day. Please refer to the "Pour rester en bonne santé" vocabulary document on my teacher page. Each day, you can choose a word from that list. For example: <b>Pour rester en bonne santé, je joue au soccer.</b> Draw a picture to match your sentence.</p>

**Other activities you can do:**

1. Draw a poppy by following a directed drawing video on YouTube.
2. Make a poppy by using red and black construction paper. Draw 4 hearts on the red paper, cut out the hearts and glue them together to make a poppy. After, you can draw a small circle on black paper, cut it out, then glue it to the center of the poppy.
3. Don't forget to go outside and play! Have fun! Be creative! You can even find a special rock and paint a poppy on it! 😊
