- *Updates on the Team*

### CLP IN REVIEW

Now that the warmer weather is upon us and our buildings have been flooded with new summer staff members, it is clear that the CLP season is really over. This season brought us many ups and downs but certainly more laughs than tears. We started off the season at the end of February when the thralls of winter meant cutting a couple visits short and having a slight power outage for another. By the time mid season rolled around, most of the snow had melted and we traded our winter boots for rubber boots and our big winter jackets for rain jackets. We ran through puddles and had a few muddy wipe outs. The birthday mermaid and merman both made appearances as well as the cleaning dementor, cleaning lantern, and some other cleaning friends. We heard about some amazing community service projects completed in communities across the Maritimes, you'll see them highlighted in the next section. We saw campers setting goals, practicing patience and kindness, making new friends and reconnecting with old ones, campers who challenged themselves and realized the importance of teamwork, campers taking responsibility for their actions, motivating others, and here we are reflecting on the whole experience! We hope you all are continuing to work on your Gr8 beads just as well all are and we hope you have a gr8 summer break!

## EVANGELINE MIDDLE SCHOOL

### Community Service Project

EMS students built a GaGa ball pit at their school. They each had roles in measuring, cutting, and seeking support in building their new play space!

## CHESTER AREA MIDDLE SCHOOL

### Community Service Project

CAMS students took time to plan a Winter festival, unfortunately winter wasn't consistent or cold enough to let them execute their festival, but they sure did a ton of planning!

## GRETNA GREEN

### Community Service Project

Gretna Green had made plans to go visit seniors in a nearby home, although they hadn't completed the project yet, they worked hard on the planning!

## COPS & KIDS

### Community Service Project

Youth from Cumberland County and Westmoreland County brought together monetary donations they had gathered to purchase materials to make backpacks for people in need. The backpacks were given to police and ambulance workers to hand out as they saw fit!

## ELIZABETH SUTHERLAND SCHOOL

### Community Service Project

ESS students worked together to make posters and give announcements about a cereal drive they held. They also gathered non-perishable food items to give to a local food bank!

## NB BOYS & GIRLS CLUB

### Community Service Project

Youth from different clubs across New Brunswick participated in different projects, from food drives, to making backpacks with basic supplies, to sponsoring a family at Christmas!

## COLDBROOK & DISTRICT SCHOOL

### Community Service Project

CDS students decided to do some community outreach. They have done this by going out in to their community and volunteering where help is needed.

## PARKSIDE ELEMENTARY & ELM STREET ELEMENTARY

### Community Service Project

Students from Parkside wrote letters to local government to get a better crosswalk system put in place to help students get to school safely. Elm Street students created a buddy bench where younger students could sit if they were lonely on the playground. They monitored it and took time to play with those who were a little sad.

## BROOKLYN DISTRICT ELEMENTARY

### Community Service Project

BDES students focused on the planet. They had campaigns with posters and announcements teaching the whole school about recycling and saving energy.

## GAETZ BROOK JR. HIGH

### Community Service Project

GBJHS students took the time to play games, paint nails, and listen to stories from some elders in their community. They visited a seniors home to spend time with the folks who live there.

# UPDATES FROM THE PROGRAM TEAM

what is everyone up to?

**AZUL**

Azul is still hanging out in Tatamagouche with her hair more blue than ever. She is looking forward to taking a bit of a break this summer and preparing for the new CLP groups!

**CRUSH**

Crush had to take off a little early to head back to Manitoba where he has been training to organize trips for campers who will be heading in to the wilderness of Whiteshell

**KHALEESI**

Khaleesi finished the season off and headed straight home to see her puppies before jet-setting to Alberta. She will be hanging out with campers in the mountains this summer

**LIDZ**

Lidz joined us at the end of the season just in time to catch a few groups. He then flew to Ontario to do some training and now he's back in Tata for the summer, he'll be hanging at the rock wall

Royal left Tata to jump in a car to Montreal where she jumped on a plane to Iceland. She is now back in Halifax and can be found life-guarding on beaches around Halifax

**ROYAL**

Slice took off at the end of April to adventure up to Parry Sound for the summer. He will be paddling around the lakes of Algonquin and Killarney

**SLICE**

Topo headed out a little early to get to training in Manitoba. She will spend another summer exploring Whiteshell where she will be sure continue the fun and play some watery tricks on her co-workers

**TOPO**

Wave has jumped quickly into preparation for our summer campers. She has been working on schedules, caring for our new honey bees, and hiking our summer routes. She's been crazy busy!

**WAVE**
