$$1 \quad (+4) - (+1) =$$

$$\bullet = +1$$

$$\circ = -1$$

$$+3$$

$$(+4) - (+1)$$

$$(+4) - 1$$

$$3$$

$$2 \quad \boxed{(+5) - \underline{-1} =}$$

$$5 + 1 = 6$$

3 $(+2) - (-2) =$

$$2 + 2 = 4$$

$$4 \quad \boxed{(-4) - (+1) =}$$

$$-4 - 1 = -5$$

$$5 \quad \boxed{(-6) - (-2) =}$$

$$-6 + 2 = -4$$

6 $(-10) - (-5) =$

$$-10 + 5 = -5$$

$$7 \quad \boxed{(-4) - (-2) =}$$

$$-4 + 2 = \boxed{-2}$$

8 $(-5) - (-10) =$

9 $+7 - (+2) =$

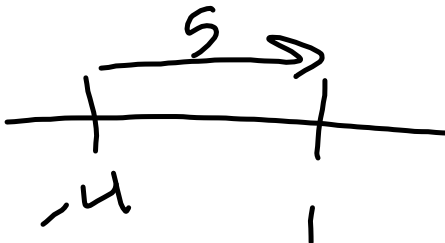

$$+7 - 2$$

$$5$$

$10 \quad (-7) - (+3) =$

$$-7 - 3 = -10$$

11 $(-4) - (-5) =$

$$-4 + 5 = \boxed{1}$$

$$12 \quad (+3) - (+3) =$$

$$+3 - 3 = 0$$

$$13 \quad (+3) - (-3) =$$

$$+3 + 3 = 6$$

14 $(-3) - (-2) =$

$$-3 + 2 = -1$$

15 $(-2) - (+3) =$

$$-2 - 3 = \boxed{-5}$$

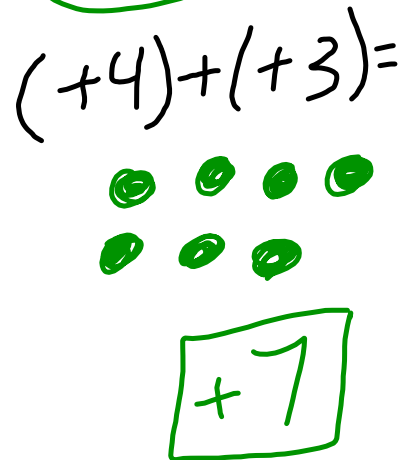

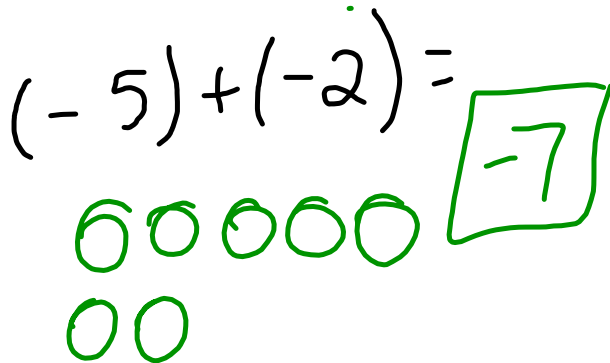

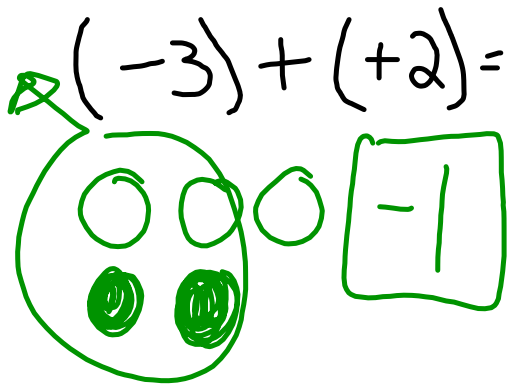

16 $(5) + (-2) =$

$$5 - 2 = 3$$

17 $(-4) + (+3) =$

$$-4 + 3 = -1$$

○ = -

$(-3) - (-2) =$

 A horizontal row of three white circles (representing -3) is circled in green. An arrow points from the right side of this row to a box containing the number -1.

$(-2) - (-5) =$

 A horizontal row of two white circles (representing -2) is circled in green. Below it, a horizontal row of five white circles (representing -5) is circled in green. An arrow points from the right side of the second row to a box containing the number 3.

$(+3) - (+4) =$

 A horizontal row of three black circles (representing +3) is circled in green. An arrow points from the right side of this row to a box containing the number -1.

$(+5) - (-2) =$

 A horizontal row of five black circles (representing +5) is shown above a box containing the number 7. Below the box, a horizontal row of two white circles (representing -2) is circled in green, with an arrow pointing from the right side of this row to the box.

addition avec une droite numérique

$$(-4) + (-2) = -6$$

$$(+7) + (-8) = -1$$

$$(-4) + (+2) =$$
